

Appln. No. 09/744,515
Amdt. date September 29, 2003
Reply to Office action of May 28, 2003

Amendments to the Drawings:

In response to the objection to the drawing set forth in Paragraph of the Office action, Applicant submits herewith a proposed drawing correction for Fig. 1 which includes a series of dotted lines within the periphery of the shaft on the portion of the shaft which is engaged with central hub portion 4a. These dotted lines represent the internal lines on the hub portion while the external splines on the shaft are clearly shown at the ends of the shaft (note that all of Fig. 1 except the splined end portions of the shaft are shown cross-section).
